Jan Kaiser

PhD candidate with a passion for AI, currently researching reinforcement learning for the optimisation and control of particle accelerators.

SKILLS

Machine learning, supervised learning, reinforcement learning and optimisation.

Scientific writing and presenting.

Interdisciplinary communication and collaboration.

Working knowledge of the physics and engineering of particle accelerators

Fast learner, always eager to engage with new subjects.

Distinguished sense for responsibility and the quality of my work.

LANGUAGES

English
Full professional proficiency

German
Native

Spanish
Basic

EXPERIENCE

Deutsches Elektronen-Synchrotron DESY, Hamburg *Doctoral Researcher*

DECEMBER 2020 - PRESENT

Research reinforcement learning for the optimisation and control of particle accelerators, including surrogate modeling and neural virtual diagnostics.

Hamburg University of Technology, Hamburg *Teaching Assistant*

NOVEMBER 2016 - JANUARY 2020

Teach and supervise lab sessions in multiple modules related to computer science, including grading responsibilities.

Marquard & Bahls AG, Hamburg — IT Department Intern

JULY 2015 - SEPTEMBER 2015

Gain experience in the software development, procurement and support processes at a large international corporation.

EDUCATION

Hamburg University of Technology, Hamburg *Doctor of Philosophy (PhD) Computer Science*

DECEMBER 2020 - PRESENT

Preliminary dissertation title: Development and Application of Machine Learning-Assisted Algorithms for Control and Optimisation of Linear Particle Accelerators

Hamburg University of Technology, Hamburg *Master of Science (M. Sc.) Computer Science*

SEPTEMBER 2018 - OCTOBER 2020

Thesis: Monitoring Embedded Devices in the Loop using Recurrent Neural Networks

Hamburg University of Technology, Hamburg *Bachelor of Science (B. Sc.) Computer Science*

OCTOBER 2015 - AUGUST 2018

Thesis: Trajectory Anonymisation by Multivariate Microaggregation
